2025 (J0) Model Year

RIFTER

PEUGEOT E-RIFTER

New PEUGEOT E-RIFTER represents a step forward in electrification, with a range of up to 199 miles, while retaining the qualities that have made this multipurpose leisure vehicle such a success, including a comfortable, spacious and modular passenger compartment, a high level of technology, and an attractive exterior design.

E-RIFTER features the brand's new design characteristics inside and out, combining a robust and stylish exterior with a comfortable and inviting interior. The new E-RIFTER has a completely updated front end, including a new radiator grille featuring the PEUGEOT shield, a modernised front bumper design and new front headlights featuring the brand's iconic three-claw light signature.

IMPORTANT NOTE RE: CONVERSIONS

Any vehicle ordered for a conversion that changes the base vehicle type approval must be aligned to a Stellantis Certified Converter within Convertool by entering the associated vehicle order number. Please note that if the vehicle order number is not inputted into Convertool then the order/s will be cancelled. It is also important that you discuss your conversion project with the converter before ordering the base vehicle.

<https://convertool.stellantis.com/>

SAFETY TECHNOLOGY

The E-Rifter is fitted with numerous driving and manoeuvring assistance systems to increase your comfort and safety.

Advanced Emergency Braking System (Standard on all versions)

An intelligent autonomous braking system designed to avoid a collision or limit its severity by reducing the vehicle's speed. The system is triggered if the driver does not react quickly enough, by activating the vehicle's brakes.

Lane Keeping Assist (Standard on all versions)

This intelligent system positions the car centrally in the lane of travel, applying left and right trajectory corrections accordingly, whilst the adaptive cruise control maintains speed and distance from the traffic ahead.

Adaptive Cruise Control with Stop & Go Function (Standard on GT)

The ACC Stop and Go system, which can be controlled via steering wheel mounted controls provides two key functions:

- Automatically maintains vehicle speed at the reference speed set by the driver
- Automatically adjusts vehicle speed to keep a safe distance from the vehicle in front, in line with the vehicle distance setting selected by the driver.

CO2 figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the certified CO2 emission output. ** WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other vehicles tested to the same technical standard. The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures.

PEUGEOT E-RIFTER | FURTHER INFORMATION

ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, PEUGEOT publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide.

These prices include VAT, number plates and delivery to Retailer of £990.00 (including £165.00 VAT), 12 months’ Government Vehicle Excise Duty and the DVLA new vehicle first registration fee of £55.00.*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO₂) emissions produced by the vehicle. CO₂ emissions are measured in grams per kilometre (g/km) travelled and divided into charging bands.

A ‘first year rate’ of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the ‘standard rate’.

EXPENSIVE CAR SUPPLEMENT

Vehicles registered on or after 1 April 2025 with a list price over £40,000 (including factory-fitted options) will attract the standard VED rate plus the Expensive Car Supplement for five years, starting from the second license year. This includes electric/zero emission vehicles.

PEUGEOT 3 YEARS OF WARRANTY

All vehicles first registered in the UK and purchased from a UK PEUGEOT Retailer benefit from a PEUGEOT 2 year unlimited mileage manufacturer’s warranty and a free optional additional 1 year of warranty provided by the PEUGEOT Retail Network in the UK.

In addition to our standard Warranty, our electric vehicles also provide an 8 year/100,000 miles, fully transferable traction battery warranty, covering performance to 70% of the original battery capacity.

Terms & conditions apply.

PEUGEOT ASSISTANCE

All new PEUGEOTs come with PEUGEOT Assistance, our breakdown assistance service.

PEUGEOT Assistance is available every minute of the day and night; 365 days of the year, for you and anyone else driving your PEUGEOT with your permission.

Your complementary cover includes:

- Electric vehicles: Are covered for 3 years or 100,000 miles (whichever occurs first) starting from date of registration
- If you sell your vehicle within the period of cover, the new owner can take advantage of any unexpired free PEUGEOT Roadside Assistance cover, which will apply to the applicable complimentary period above.
- At Home service
 - If your vehicle breaks down at home, we will bring our roadside assistance service to your doorstep. If your vehicle can’t be repaired, we will transport your vehicle to the nearest PEUGEOT Authorised Repairer.
- Recovery
 - If a prompt local repair at the roadside isn’t possible, we’ll arrange onward passage for you: up to seven passengers and your vehicle to any single mainland UK destination. If you’re towing a caravan or trailer, this can also be recovered (subject to certain weight and size restrictions).
- Onward mobility
