

# PEUGEOT **E-TRAVELLER**

PRICES - EQUIPMENT - TECHNICAL SPECIFICATIONS

Effective from 2nd September 2025 (ECG confirmation)  
2026 (K4) Model Year

# PEUGEOT E-TRAVELLER

**E-TRAVELLER is available in a variety of configurations, appealing to a wide range of private and business users including those that offer professional passenger transport services. The Allure trim level offers a lounge configuration with four independent seats facing each other, with a luxurious finish and high levels of equipment including tri-zone air conditioning and a black-out glass roof.**

**E-TRAVELLER is adaptable and practical with sliding and removable seats, shelves in row two and more. Interior space is generous with no compromise thanks to the batteries being located under the floor.**

Please note: The above LCDV codes are for England, Wales and Scotland. For Northern Ireland the ‘TX’ is replaced with ‘T0’.

^£1,500 Electric Car Grant (ECG). ECG has an upper limit of £42,000 for eligibility hence only Combi trim qualifies  
CO<sub>2</sub> figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO<sub>2</sub> figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle as well as EAER range data and RDE2 compliance for BIK%. The addition of optional extras could increase the certified CO<sub>2</sub> emission output or modify the EAER range. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please contact your local PEUGEOT Retailership for the most up-to-date prices and specification details for all models.  
\*For further information on CO<sub>2</sub> and pricing for vehicles with optional equipment, please visit [www.peugeot.co.uk](http://www.peugeot.co.uk) and configure your chosen vehicle with your preferred options.  
>>Electric Vehicle Range (EAER) for standard specification without factory fitted options. Factory fitted options may reduce electric vehicle range.

Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO<sub>2</sub> values of other cars tested to the same technical standard.  
\*\*‘On the Road’ MRRP includes registration plates and delivery to retailer (including VAT), 12 months’ Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.  
All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

PEUGEOT E-TRAVELLER | EXPLORE THE RANGE

SAFETY TECHNOLOGY

The Traveller is fitted with numerous driving and manoeuvring assistance systems to increase your comfort and safety.

**Forward collision alert incorporating Advance Emergency Braking System (AEBS)\***  
(Standard)

This system alerts the driver of a potential forward collision through a combination of visual and then audible warnings. Should the driver fail to react, autonomous emergency braking is triggered to help mitigate/avoid the impact by reducing the speed of the vehicle. AEBS provides additional assistance to optimise braking performance while a dynamic brake support function boosts pressure to help further minimise stopping distances.

**Lane Keep Assist**  
(Standard)

If the driver has not actively steered or signalled, the system performs corrective steering actions to help prevent the vehicle crossing painted boundary lines or road side edges.

**Active cruise control with Stop and Go facility**  
(Optional on Active and Allure)

Maintains the speed set but if a slower vehicle is detected ahead, the system will automatically lower the vehicle speed to keep a safe distance. The system will bring the vehicle to a complete standstill if required.

The eTraveller is a battery electric vehicle requiring mains electricity for charging. Range data given has been determined according to WLTP test procedure methodology. The figures shown are intended for comparability purposes only and should only be compared to other cars tested to the same technical standard. The range you achieve under real world driving conditions will depend upon a number of factors, including but not limited to: the accessories fitted (pre and post registration); charging frequency; personal driving style; vehicle load and route characteristics; variations in weather; heating/air conditioning; pre-conditioning and battery condition. For more information, contact your local Peugeot Retailer.

\*Requires optional 11kW on board charger.

# PEUGEOT E-TRAVELLER | FURTHER INFORMATION

## ON-THE-ROAD PRICES

To eliminate uncertainty about hidden costs when buying a new car, PEUGEOT publishes on-the-road recommended retail prices (RRP) and these are shown in the pricing tables within this price guide.

These prices include VAT, number plates and delivery to Retailer of £990.00 (including £165.00 VAT), 12 months’ Government Vehicle Excise Duty and the DVLA new vehicle first registration fee of £55.00.\*

Please note: The on-the-road recommended retail price (RRP) does not include fuel supplied by the Retailer, motor insurance or any other goods or services supplied by agreement between the Retailer and the customer.

## VEHICLE EXCISE DUTY

The amount of Vehicle Excise Duty (road fund licence) payable on new cars varies depending on the level of carbon dioxide (CO<sub>2</sub>) emissions produced by the vehicle. CO<sub>2</sub> emissions are measured in grams per kilometre (g/km) travelled and divided into charging bands.

A ‘first year rate’ of Vehicle Excise Duty is payable on all new cars and in subsequent years the amount payable reverts to the ‘standard rate’.

## EXPENSIVE CAR SUPPLEMENT

Vehicles registered on or after 1 April 2025 with a list price over £40,000 (including factory-fitted options) will attract the standard VED rate plus the Expensive Car Supplement for five years, starting from the second license year. This includes electric/zero emission vehicles.

## PEUGEOT 3 YEARS OF WARRANTY

All vehicles first registered in the UK and purchased from a UK PEUGEOT Retailer benefit from a PEUGEOT 2 year unlimited mileage manufacturer’s warranty and a free optional additional 1 year of warranty provided by the PEUGEOT Retail Network in the UK.

In addition to our standard Warranty, our electric vehicles also provide an 8 year/100,000 miles, fully transferable traction battery warranty, covering performance to 70% of the original battery capacity.

Terms & conditions apply.

## PEUGEOT ASSISTANCE

All new PEUGEOTs come with PEUGEOT Assistance, our breakdown assistance service.

PEUGEOT Assistance is available every minute of the day and night; 365 days of the year, for you and anyone else driving your PEUGEOT with your permission.

Your complementary cover includes:

- Electric vehicles: Are covered for 3 years or 100,000 miles (whichever occurs first) starting from date of registration.
- If you sell your vehicle within the period of cover, the new owner can take advantage of any unexpired free PEUGEOT Roadside Assistance cover, which will apply to the applicable complimentary period above.
- At Home service
  - If your vehicle breaks down at home, we will bring our roadside assistance service to your doorstep. If your vehicle can’t be repaired, we will transport your vehicle to the nearest PEUGEOT Authorised Repairer.
- Recovery
  - If a prompt local repair at the roadside isn’t possible, we’ll arrange onward passage for you: up to seven passengers and your vehicle to any single mainland UK destination. If you’re towing a caravan or trailer, this can also be recovered (subject to certain weight and size restrictions).
- Onward mobility

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). It is our policy to continually improve our vehicles in every way. To avoid any misunderstandings you are advised to check with your PEUGEOT Dealer the prices, specification (including colour), equipment, accessories and equipment relating to any PEUGEOT vehicle and the exact cost and availability prior to ordering. Where a feature is described as an option in this publication it should be assumed that it is at extra cost unless specifically stated otherwise. Issued by Sales and Marketing, PEUGEOT Motor Company PLC, Pinley House, Sunbeam Way, Coventry CV3 1ND.

The fuel consumption achieved, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO<sub>2</sub> figures.
