EXPLORE THE RANGE

STANDARD SPECIFICATION

Safety & Security

- ABS (Anti-lock Braking System) with EBFD (Electronic Brake Force Distribution) and EBA (Emergency Brake Assist)
- Post Collision Safety Brake (PCSB)
- Airbags: Driver and front passenger airbags (includes passenger airbag manual deactivation function)
- Airbags: Driver and front passenger side airbags
- Airbags: Curtain airbags covering heads of front occupants and heads & shoulders of rear lateral occupants
- Alarm – Perimeter, Volumetric and Anti-lift detection (Option to subscribe to Connected Alarm Services) – Thatcham Category 1
- Automatic door locking when moving off
- Automatic hazard light activation upon heavy brake application
- Child locking functionality on rear doors – manual activation
- Deadlocking
- Exterior Door Lock (Passenger Door)
- Electronic code immobiliser – Thatcham Category 1
- Electric Parking Brake
- Hill Assist
- Laminated Windscreen
- Dynamic Stability Control (DSC) and Anti Slip Regulation (ASR)
- Front optimised safety headrests and rear retractable headrests (x3), height-adjustable.
- Seatbelts – front and rear outer seats with pyrotechnic pretensioners and force limiters
- Seatbelts – rear central seat with 3 point seatbelt
- Seatbelts – reminder and unfastened warning indicator
- Front passenger seat detection
- PEUGEOT SOS & Assistance
- Front and rear disc brakes
- Isofix child seat fittings (x2) outer rear seats, zipped cover
- Programmable cruise control and speed limiter
- Driver Attention Alert (DAA3)
- Lane Keeping Assist (LKA)
- Speed limit & traffic sign recognition and recommendation
- Seatbelt unfastened on the move with audible and visual alert for front and rear seats
- Locking wheel nuts
- Tyre under-inflation monitoring and detection (indirect)
- Exterior temperature indicator with ice warning
- AVAS: Acoustic Vehicle Alerting System. Generates a sound when travelling at low speed, audible outside the vehicle for pedestrian safety
- Driver Vigilance Camera
- Tyre Inflation Kit

PEUGEOT 3008

STANDARD SPECIFICATION

Comfort & Convenience

- Air conditioning
- Cabin (HE) high efficiency filter (removes up to 92% of particles & 98% of mould & bacteria)
- Quick launch cabin heating/cooling function – also linked to heated steering wheel and heated and ventilated seats when specified
- Cabin thermal pre-conditioning – activated in vehicle or via remote services* (ELECTRIC & PLUG-IN HYBRID)
- PEUGEOT Open & Go (Proximity Keyless Entry with Push Button Start)
- Electric Windows Front & Rear with 'one touch'
- Electric power steering with reach and rake manually adjustable steering column
- Rear Parking Sensors
- Reversing Camera with camera washing function
- Acoustic windscreen
- Flat blade wipers with 'magic wash' integrated nozzles
- Dark tinted privacy glass for rear doors, tailgate and quarter windows
- Door Mirrors – electric adjustment, heated, power folding, welcome lighting and integrated LED indicators
- Dual Zone Climate Control with rear air vents
- Electrochrome rear view mirror
- Electric parking brake
- Multifunction trip computer
- 'Arch' design central console with concealed storage
- Grab handles (x4), dampened and retractable
- Tailgate with heated rear window
- PEUGEOT i-Cockpit®:
  - 21" HD panoramic curved display incorporating instrument panel and touchscreen with 3-colour themes
  - Compact split leather multifunction steering wheel with gloss black and satin chrome detailing
- Driving mode selector with configurable ambient lighting
- Central front armrest with ventilated storage compartment and LED lighting
- Manual gear changes via steering mounted paddles (HYBRID & PLUG-IN HYBRID only)
- Enhanced 3 stage regenerative braking via steering wheel mounted paddles (ELECTRIC only)
- 11kW tri-phase bi-directional on board charger (ELECTRIC only)
- Vehicle-To-Load (V2L) preparation (ELECTRIC only) V2L adaptor plug available as Accessory from PEUGEOT Retailer
- 3.7kW Single-phase On-board Charger (PLUG-IN HYBRID only)
- Mode 3 type 2 cable for wall box charging (ELECTRIC only)
- Mode 2 Cable for Domestic Socket Charging (PLUG-IN HYBRID)
- 2x Keys (lock, unlock, boot release functions with concealed key)
- 2x 12V sockets (Cabin front and boot – all compatible with tyre inflation compressor)
- Remote charge management via My PEUGEOT App* (ELECTRIC & PLUG-IN HYBRID)
- Battery pre-conditioning function (ELECTRIC only)

* For vehicles registered from 1st July 2025, e-Remote Control (Remote Charging, Remote Climate Control) and e-ROUTES are included with a free 10-year subscription. The features are available via the MyPEUGEOT app.

PEUGEOT 3008
EXPLORE THE RANGE

STANDARD SPECIFICATION

Exterior Features

- 18" alloy wheels with 'Star' centre cap featuring PEUGEOT shield
- Body coloured front grille
- Body coloured 'floating effect' rear spoiler
- Body coloured exterior door handles
- Roofline, lower front bumper and rear bumper trims in Meteor Grey
- '3008' model designation badges front and rear in Basalt Grey
- 'HYBRID' rear badging in Basalt Grey (HYBRID only)
- 'PLUG-IN' Rear Badging in Basalt Grey (PLUG-IN HYBRID only)
- 'Long Range' rear badging in Basalt Grey (LONG RANGE ELECTRIC 230 ONLY)
- 'DUAL MOTOR' rear badging in Basalt Grey (DUAL MOTOR ELECTRIC 325 only)
- Metallic paint – Obsession Blue
- 'Orbital' black door mirrors
- Gloss black B-Pillar
- Gloss back connecting strip between rear lights
- Lower door claddings & wheel arch protection

Lighting and Visibility

- Automatic headlamp activation
- Automatic windscreen wiper activation with interval wiping intensity control
- LED exterior lighting
- ECO LED headlights
- PEUGEOT '3-claw' signature front and rear daytime running lights (DRLs)

Interior Features

- Driver pedals with aluminium finish
- Driver footrest
- Textile Decor for dashboard, door panels and central console arch
- 'e-Toggle' compact gear selector mounted on dashboard
- 8-colour ambient lighting (under panoramic display, central console & sunroof if specified)
- LED front and rear roof lighting
- LED footwell lighting
- LED Illuminated driver and passenger concealed sunvisor mirrors
- LED boot lighting
- Glasses storage box, roof mounted
- Glovebox with LED lighting
- Centre console twin cup holders
- Luggage cover
- 40/20/40 folding rear seat backrest with fixed base
- Interior door handles with chrome finish
- Dynamic front seats, height adjustable, with fabric and leather effect trim
- Adjustable 2-position boot floor with 4x luggage tie-down rings and 2x bag hooks
- Interior ambience 'Mistral' black pillars and headlining

In Car Entertainment

- PEUGEOT i-Connect® Advanced
  - HD fully customisable touch screen
  - Connected navigation with 'over the air' map updates
  - DAB (Digital Audio Broadcasting) Radio
  - AM/FM bi-tuner
  - Wireless MirrorScreen (Apple Car Play & Android Auto)
  - Bluetooth with two microphones (connect up to 2 phones)
  - Natural voice recognition
  - Driver profile setting (up to 8 available)
  - USB-C Sockets (2x Front & 2x Rear)
  - 6 Speakers (2 front tweeters, 2 front door speakers & 2 rear door speakers)
- Customisable virtual 'i-Toggle' display (10 i-Toggles available plus Home button)
- Smartphone Wireless Charger (15 Watts) with status light and ambient lighting

PEUGEOT 3008
STANDARD EQUIPMENT BY VERSION

ALLURE
AVAILABLE WITH ELECTRIC, PLUG-IN HYBRID & HYBRID POWERTRAINS

SAFETY AND SECURITY
- Advanced Emergency Braking System with radar (AEBS3) providing night detection of pedestrians and cyclists
- PEUGEOT SOS & Assistance

COMFORT & CONVENIENCE
- 21" HD panoramic curved display incorporating instrument panel and touchscreen
- Dual Zone Climate Control with rear air vents
- Dark tinted rear side and tailgate window
- Electric Folding Door Mirrors
- Electrochrome rear view mirror
- Rear parking sensors
- Reversing Camera with wash system
- PEUGEOT e-Remote Control*^ – vehicle charging and cabin pre-conditioning (ELECTRIC & PLUG-IN HYBRID)
- Drive mode selector
- PEUGEOT Open & Go (keyless entry with 'proximity' locking and unlocking)

LIGHTING AND VISIBILITY
- ECO LED Headlights and front and rear signature daytime running lights
- PEUGEOT '3-claw' signature front and rear daytime running lights (DRLs)

INTERIOR FEATURES
- 'Graphene' carbon effect dashboard and front door panel 'alcove' decor
- Ambient lighting linked to Drive Mode
- 'Dynamic' front seats
- Seating: 'RISPY' embossed grey fabric with Quartz stitching and leather effect trim
- Driver pedals with aluminium finish

EXTERIOR FEATURES
- 19" 'LULEA' diamond cut alloy wheels (ELECTRIC & PLUG-IN HYBRID)
- 19" 'BREDA' Diamond Cut Alloy Wheels (HYBRID 145 versions only)
- Front grille with body-coloured accents
- Roofline, lower front bumper and rear bumper trims in Meteor Grey

IN CAR ENTERTAINMENT
- PEUGEOT i-Connect® Advanced*^
  - Connected Navigation with TomTom Live Updates & Speedcam alerts (6mths)*^
  - 'Over the air' map updates
  - Voice recognition with "OK PEUGEOT" command using natural language
- Customisable Virtual 'i-Toggle' display
- Smartphone Wireless Charger (15 Watts) with status light and ambient lighting

19" 'BREDA' Alloy Wheel (HYBRID)

19" 'LULEA' Alloy Wheel (ELECTRIC & PLUG-IN HYBRID)

* Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

^ Subject to subscription – for renewal, terms and conditions, and any other details about connected services, visit: https://services-store.peugeot.co.uk

* For vehicles registered from 1st July 2025, e-Remote Control (Remote Charging, Remote Climate Control) and e-ROUTES are included with a free 10-year subscription. The features are available via the MyPEUGEOT app.

CO_2 figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO_2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle as well as EAER range data and RDE2 compliance for BIK%. The addition of optional extras could increase the certified CO_2 emission output or modify the EAER range. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable.

**For further information on CO_2 and pricing for vehicles with optional equipment, please visit www.peugeot.co.uk and configure your chosen vehicle with your preferred options.

>>PLUG-IN HYBRID Electric Vehicle Range (EAER) for standard specification without factory fitted options. Factory fitted options may reduce electric vehicle range.

Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard.

The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures.***'On the Road' MRRP includes registration plates and delivery to retailer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

PEUGEOT 3008
NEXT-LEVEL DRIVING EXPERIENCE

PEUGEOT i-Cockpit®

PEUGEOT Panoramic i-Cockpit®

The PEUGEOT i-Cockpit® is part of the brand's DNA, produced for over 10 years, with over 10 million units sold. 3008 takes it to the next level and transforms the driving experience with the New PEUGEOT Panoramic i-Cockpit®.

It consists of a 21" curved, frameless display which appears to 'float', combining the head-up digital instrument panel and high-definition central touchscreen, a newly designed multi-function compact steering wheel, and fully configurable virtual i-Toggles providing 10 shortcuts to the functions of your choice.

The 'arch' central console rises to create a 'cockpit' feeling, elevating key controls to the fingertips of the driver, while the sculpted cutaway design creates more space and easy access to smart storage from the passenger side.

PEUGEOT 3008
NEXT-LEVEL DRIVING EXPERIENCE

PEUGEOT i-Cockpit®

HD Panoramic Curved Display

The 21" high-definition curved display is at the heart of 3008 Panoramic i-Cockpit®, combining the **head-up digital instrument panel** and **central touchscreen.** Cleverly mounted with ambient lighting under, it appears to **'float' above the dashboard.**

This 21" panoramic screen is positioned for optimum ergonomics, slightly angled towards the driver while remaining perfectly accessible to the front passenger.

- The digital instrument panel displays all the information related to driving (speed, power meter, driving aids, energy flow, etc.) above the compact steering wheel. It is easily customisable with up to 5 different display settings.
- The touchscreen is accessible to both driver and passenger, and is used to access heating, navigation, media, telephone, connectivity and vehicle functions. Being fully customisable, a range of displays can be created, which are accessed with a simple swipe of the screen.

Combining the digital instrument panel and central touchscreen a truly bespoke arrangement can be created to suit the driving environment and needs of the driver and passengers.

Compact Steering Wheel

The compact steering wheel is a key element of the PEUGEOT i-Cockpit® and has been extensively reworked to offer an even greater driving experience. It features a new modern design: the central airbag is more compact and 'isolated' from the steering wheel spokes creating a 'floating' effect similar to the panoramic display.

The controls on the new compact steering wheel are now **'tactile clicking' for optimum user ergonomics:** they automatically detect the driver's fingers and are only activated when pressed, to avoid any unintended commands.

The new PEUGEOT panoramic i-Cockpit® also introduces two **new slim and modern stalks** behind the compact steering wheel, combining elegant glossy black finishes with satin chrome accents.

From ALLURE PREMIUM, the steering wheel is heated for enhanced comfort.

All versions are equipped with steering wheel paddles. On electric versions these are used to adjust the regenerative braking level (3 levels available), while on HYBRID and PLUG-IN HYBRID versions they are used to manually change the gears.

Virtual i-Toggles

i-Toggles are displayed on a second touchscreen below the central air vents. Each i-Toggle is a virtual shortcut button and up to 10 i-Toggles can be set to allow easy and quick access to the functions important to the individual, for example, Navigate Home, Classic FM, Heated Steering Wheel, Seat Massage.

The 'Home' shortcut is permanently displayed, followed by ten customisable shortcuts over two pages; a simple swipe moves between the pages.

PEUGEOT 3008
NEXT-LEVEL DRIVING EXPERIENCE

PEUGEOT i-Connect® Advanced

PEUGEOT i-Connect® Advanced is our infotainment system enabling everyone to have the best from the world of smartphones and automotive. The Human-Machine Interaction (HMI) is both intuitive and responsive.

Up to 8 Driver Profiles

Up to 8 driver profiles can be set and saved for preferences of:

- System settings: Language, Measurement units and Privacy
- Screen configurations: especially colours, apps, screen set-ups, homepages
- Audio settings and pre-sets stations
- Vehicle settings: ambient lighting, Clean Cabin (when available), comfort features
- Navigation: Favourite routes, POIs.

Connected Navigation & EV Routing

The PEUGEOT i-Connect® Advanced system integrates a high-performance and efficient **TomTom® connected navigation.** For optimal readability, the map can be displayed centrally or in front of the driver. Maps are updated **"over the air"** via a subscription.

The TomTom® connected navigation also provides **EV Routing function** to plan and perform the fastest and most efficient path to reach any destination, within or beyond the EV vehicle range. To minimise travel time, the system calculates the best route, analysing the charging needs according to multiple factors: distance, battery state of charge, driving speed consumption, traffic, and road type.

Wireless Mirror Screen & Dual Bluetooth

Mirror Screen function is available wirelessly or via USB cable. Mirror Screen is compatible with Android Auto and Apple Car Play. Smartphone navigation apps can be mirrored in the touchscreen or the digital instrument panel with map display.

Two devices can be connected simultaneously by Bluetooth, for phone calls or data. For optimised phone call quality, 3008 is equipped with **two microphones,** one above each of the front occupants.

Wireless Smartphone Charger

The arch of the central console extends to a dedicated shelf under the Virtual i-Toggles for wireless phone charging.

This function lets the driver charge their smartphone up to 15 watts by induction, simply by placing the phone on the mat. An ambient LED light illuminates the charging area.

Natural Voice Recognition

The natural language voice recognition can be commanded either using **"OK PEUGEOT"** or by pressing the dedicated button on the steering wheel. Available in 22 different languages, it can be used in everyday life to improve safety and ease of use, providing access to all requests related to infotainment functions including climate control, navigation setting, radio/media setting, and phone calls.

On-board documentation is available including video tutorials to explain and demonstrate vehicle functions.

PEUGEOT 3008
NEXT-LEVEL DESIGN

STUNNING DESIGN

A Dynamic and Efficient Silhouette with an Assertive Posture.

3008's fastback body style offers a new balance that goes beyond traditional SUV codes.

It is dynamic and efficient, thanks to its sleek body work, and is also sharp and provides the feeling of a powerful 'ALLURE', thanks to its iconic lighting signature and attention to every single detail.

1. The **PEUGEOT shield,** proudly displayed in the centre of the front grill, creates a perfectly-balanced **ripple-effect** look, extending all the way to the iconic 3-claw Daytime Running Lights (DRL) signature.
2. The **front grille** with **body-coloured accents** and PEUGEOT shield, ensures a modern and next-gen look.
3. The **3-claw signature Daytime Running Lights (DRL)** at the front are **instantly recognisable** at first glance day and night. On GT & GT PREMIUM versions, the 3-claw DRL extends into the Pixel LED headlights, in a balanced and harmonious fashion.
4. **'3008' model designation,** in Basalt Grey , signs the front and rear in a subtle and elegant way.
5. Technically and geometrically, the black **diamond cut alloy wheels** contribute to both modern styling and excellent **aerodynamic performance.** On GT PREMIUM (ELECTRIC & PLUG-IN HYBRID) versions, the 20" alloy wheels, with black inserts, reinforce these characteristics. The new 'star' centre cap highlights the PEUGEOT shield.
6. The **'floating' spoiler** also contributes to both the stylish look and optimised aerodynamics.
7. On the rear, 3008's **'high tail' effect** provides both a dynamic look and rear view stance.
8. Full **LED rear lights** also display the **3-claw lighting signature.** On GT & GT PREMIUM using a 3D glass blades design, the rear LED lights are visible along the rear fenders.

PEUGEOT 3008
NEXT-LEVEL REFINED INTERIOR

The dynamic shape of 3008 front seats provides not only comfort but also a **cosy wrap-around lounge feeling,** accentuated by extensive textile decor from the dashboard, to the door panels and central arch. The careful attention to detail, elaborated by the PEUGEOT shield on front headrests (standard from GT) and the refined top stitching in the upholstery, is felt at every touch in the cabin.

On GT & GT PREMIUM, the alcove zones of the dashboard and door panels feature a printed real aluminium decor, working in perfect harmony with the ambient lighting, bringing the cosy lounge feeling to the next level.

Ambient Lighting

From GT level, the strong appeal and technological character of the i-Cockpit are enhanced by the ambient lighting:

- Across the entire width of the dashboard and door panels, reflected on an elegant aluminium trim
- Under the 21" panoramic screen reinforcing its 'floating' effect
- Under the central arch, illuminating the central console
- Along the opening sunroof (if fitted)

Drive Modes are linked to ambient lighting; changing Drive Mode will change colour theme of the screens and ambient lighting colour in the cabin. Users can choose from 8 colours of ambient lighting.

FOCAL® HI-FI PREMIUM SYSTEM

Hi-Fi Audio System & FOCAL® Premium Hi-Fi

3008 introduces a **new audio system,** which ensures excellent sound quality and a more immersive sound stage, through optimised cabin interior design, a new generation of audio components and latest digital processing algorithms.

The **FOCAL® Premium Hi-Fi System** takes audio experience to the next level. It consists of 10 new generation speakers, a new subwoofer and reinforced amplification. The 12-channel amplifiers, 8 of which have been boosted, deliver 690 watts of power. The expertise of French partner Arkamys in onboard signal processing is also utilised to deliver a premium audio experience.

Alcantara® Seats with Ultimate Comfort

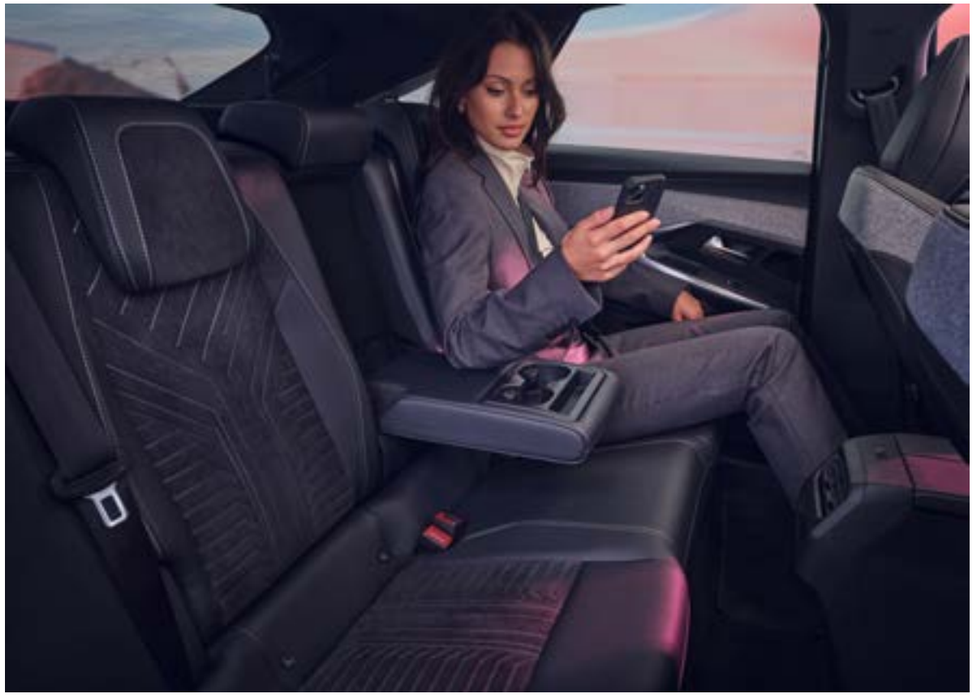

Elevating luxury and comfort to the next level, 3008 can be specified with Alcantara® upholstery with electric seat adjustments.

On GT (optional) & GT PREMIUM (standard) versions, in combination with Alcantara® upholstery, both front seats benefit from 10-way powered adjustment including lumbar support and seat cushion adjustment, massage function and heating for the rear seats. In addition adaptive bolsters are fitted to the front seats improving lateral comfort thanks to 2 pneumatic pockets located in the backrest's side bolsters. The driver and front passengers can inflate or deflate the adaptive bolsters to adjust the lateral size of their seats to suit their own body shape, or the driving conditions. Adaptive bolsters can be adjusted via the touchscreen.

The Alcantara® seats (Driver & Passenger) on GT (optional) & GT PREMIUM (standard) versions have also been awarded the AGR seal of approval (Aktion für Gesunder Rücken), a well-known German association supported by doctors and therapists promoting research into preventing backache.

PEUGEOT 3008

PRACTICALITY WITH STYLE

Rear Seats Foldable with 40/20/40 Split

The rear seats have been designed to offer the best comfort for three passengers. The three separate backrests can be **individually folded with a 40/20/40 split**. The central backrest can be folded independently to provide a ski hatch function or for a long bulky load, while two adult passengers sit comfortably on the two outer rear seats. From GT level, a **central armrest with two integrated cup-holders and smartphone holder** is integrated in the central backrest.

Quick Launch Function

When the cabin temperature is at 4° or below, a single press on the **Quick Launch** button sets the air-conditioning temperature to HIGH, turn on the Heated Steering Wheel (if fitted) and Heated Seats (if fitted), and sets the airflow to maximum level towards the feet.

When the cabin temperature is at 35° or above, pressing the button sets air-conditioning temperature to LOW, turns on the front Seat Ventilation (if fitted), sets the airflow to maximum level, towards the side and central air vents, and activates air recycling.

When cabin temperature is at 5°C to 35°C, pressing the button sets the air conditioning to 'Auto Fast' with temperature to 21°C and maximum airflow (with automatic air distribution).

Heat Pump

The heat pump system (standard on GT Premium Electric versions) is an energy-saving air conditioning system. When outside temperatures fall below 0°C, the Heat Pump can help save up to 40% energy when heating the cabin.

PEUGEOT 3008

PRACTICALITY WITH STYLE

Cabin Storage

3008 offers generous storage spaces throughout the cabin. There are up to 17 different storage spaces, with overall volume of nearly 34 litres. Storage places include glovebox, doors, central armrest, cup holders and **glasses storage box on the roof.** 3008 has also been designed to offer easy access to **smart storages from the front passenger seat.**

Handsfree Smart Electric Tailgate (foot operated)

Standard from GT, the Handsfree Smart Electric Tailgate can be opened and closed with a 'kicking motion' under the rear bumper. Conveniently, the tailgate can also be opened and closed using the dedicated button on the key fob or from the cabin.

Two-position Boot Floor

The height of the boot floor can be adjusted easily to two levels, according to individual needs, to prioritise overall volume or a flat floor for easy loading.

PEUGEOT 3008
NEXT-LEVEL DRIVING EXPERIENCE

SAFETY TECHNOLOGY

A host of advanced safety features are fitted on 3008, there to support your drive, providing you with extra awareness and extra peace of mind.

Pixel LED Headlights (standard from GT)

New PEUGEOT Pixel LED headlights combine **six different technologies on low beam management** and **high beam management, automatically adapting the headlight beams to the traffic conditions,** maintaining optimal lighting without hindering other road users (such as oncoming vehicles or vehicles in front).

Low Beam Management features
(enabled when 'Adaptive Front Light System' is activated in settings)

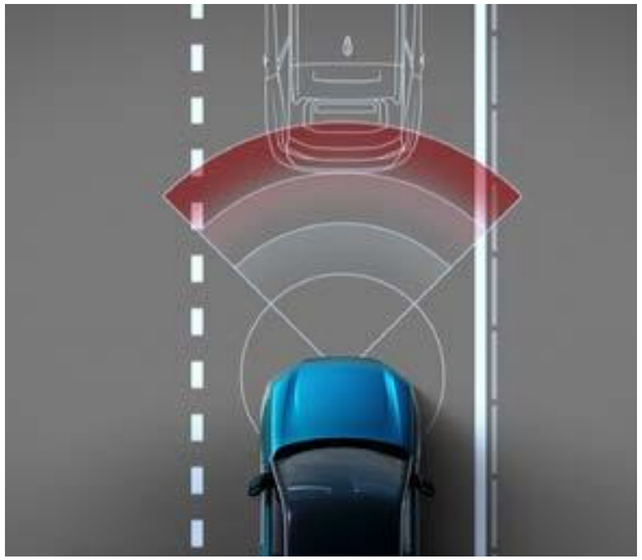

- **Static Bending Light (SBL):** provides additional illumination in road curves, right or left side, up to approximately 43mph.
- **Digital Bending Light (DBL):** moves the intensity of low beam light distribution in the direction of the road curve, at all speeds.
- A**dvanced Front lighting System (AFS):** optimises the low beam distribution, depending on road type (e.g. city, town, motorway, etc.), weather condition (e.g. dry, rainy, foggy, etc.) and the driving speed.

High Beam Management features
(enabled when 'Automatic High Beam System' is activated in settings)

- **Glare Free High Beam (GFHB):** 3008 detects the horizontal left and right borders of vehicles ahead, considering their outside rear view mirrors, inclination when driving in curves and their dynamics. The headlights build a glare-free area around all vehicles existing inside 3008's front illumination area, without generating glare to other road users.
- **Traffic Sign Anti-Glare (TSAG):** When 3008 detects strong reflector objects, then the headlights dim down the light intensity. The intensity is regulated to a constant level during the whole detection time for a better driver comfort.
- **High Beam Boost (HBB):** the headlights provide additional light intensity in the centre of the high beam area when driving at higher speeds and the traffic condition allows.

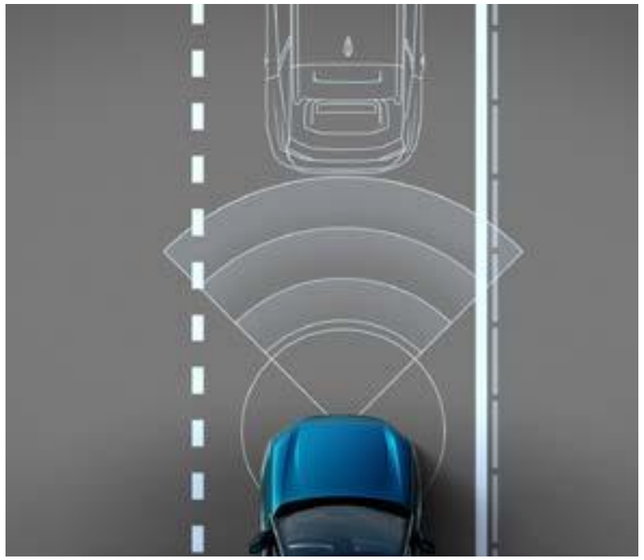

PEUGEOT 3008
NEXT-LEVEL DRIVING EXPERIENCE

SAFETY TECHNOLOGY

Active Safety Brake System
(standard on all versions)

An intelligent autonomous braking system designed to avoid a collision or limit its severity by reducing the vehicle's speed. The system starts by displaying various levels of alert (visual, sound, or vibration) to the driver, depending on the risk of collision and the alert threshold selected by the driver. If the driver does not react quickly enough, the system brakes the car automatically.

Adaptive Cruise Control with Stop & Go
(standard from ALLURE PREMIUM)

The ACC Stop & Go system, which can be controlled via steering wheel mounted controls, provides two key functions:

- Automatically maintains vehicle speed at the reference speed set by the driver
- Automatically adjusts vehicle speed to keep a safe distance from the vehicle in front, in line with the distance setting selected by the driver.

Lane Keeping Assist (standard on all versions)

This system is active at speeds over 40mph. The system monitors longitudinal lane markings on the ground. If a deviation is detected across a lane marking, the driver is alerted by a flashing indicator on the instrument panel and a sound signal.

As well as identifying lane drift, Active Lane Deviation Assist sets the car back on course. As soon as the system identifies a risk of accidentally crossing one of the marking lines detected on the ground, it gradually steers the vehicle in the opposite direction to keep it in its lane. An indicator on the instrument panel flashes while this corrective action is in progress.

Extended Traffic Sign Recognition (standard on all versions)

This system recognises speed signs along with most other traffic signs and displays them on the instrument panel for the driver. This function contributes to enforcing the Highway Code as well as increasing safety.

PEUGEOT 3008
NEXT-LEVEL DRIVING EXPERIENCE

SAFETY TECHNOLOGY

Long Range Blind Spot Monitoring
(standard on ALLURE PREMIUM, GT PREMIUM)

This system warns the driver of vehicles approaching rapidly from the rear in adjacent lanes (up to around 75 meters) and of the presence of a vehicle in the blind spots, using rear corner radars along with windscreen-mounted camera. This information is conveyed to the driver with a LED that lights up in the exterior door mirror on the concerned side.

Rear Cross Traffic Alert
(standard on ALLURE PREMIUM, GT PREMIUM)

For safe reversing, this system warns of approaching obstacles (pedestrian, cyclist, vehicle, etc.) in the vehicle's blind spot zones using rear corner radars, when the car is in reverse gear with engine running.

At a speed of up to 5 mph, the system can detect an approaching obstacle with a detection range up to 40m.

Highway Assist 2.0
(standard on GT PREMIUM)

This system combines **Adaptive Cruise Control (ACC Stop & Go), Lane Positioning Assist, Semi-Automatic Lane Change** and **Recommended Speed Adaptation** to manage driving in semi-autonomous mode in specific conditions. The vehicle manages steering and speed.

Lane Positioning Assist
This intelligent system positions the car centrally in the lane of travel, applying left and right trajectory corrections accordingly, whilst the Adaptive Cruise Control maintains speed and distance from the traffic ahead.

Semi-Automatic Lane Change
This system assists the driver when changing lanes. This function is available at speeds between 40 mph and 110 mph and is activated when the driver turns on the indicator.

If the conditions necessary for the system to function are met, the message "OK?" is displayed in the instrument panel, accompanied by a sound signal. Once the driver presses the "OK" button on the steering wheel, semi-automatic lane change begins, the system steers the vehicle into the intended lane by small steering inputs to position it in the destination lane.

If the conditions necessary for the system to function are not met, the lines (representing the destination lane) are displayed in orange, accompanied by a sound signal. In this case, lane change manoeuvre is denied.

Recommended Speed Adaptation
This system detects the next speed limit sign, displays it in the background and proposes this new speed as **target reference speed for the ACC S&G.**

When a new speed limit is anticipated, the system displays the value and "OK?" flashes for a few seconds to offer to save it as the new speed reference. For additional safety, if rain is detected, the system offers a set speed lower than the new anticipated speed in order to adapt to the weather conditions.

Once the new speed target is accepted by the driver, by pressing the "OK" button on the steering wheel:

- If the target speed is lower than the previous one, the vehicle will slow down to the new speed at the sign.
- If the set speed is higher than the previous one, the vehicle accelerates to this new speed from the sign.

PEUGEOT 3008
NEXT-LEVEL DRIVING EXPERIENCE

POWERTRAINS

3008 is the first car within Stellantis Group to be built on the new **BEV-By-Design STLA Medium platform**, which is designed to deliver best-in-class electric range and energy efficiency.

Platform components, such as the cabin heating/cooling system, steering, braking assist and propulsion are designed to minimise energy consumption. Those efforts, combined with extensive use of lightweight and rigid materials, optimise vehicle range and deliver exemplary ride and handling performance.

CHOICE OF FIVE ELECTRIFIED POWERTRAINS

3008 is available with a choice of five electrified powertrains:

- ELECTRIC 210 with 73kWh battery
- LONG RANGE ELECTRIC 230 with 97kWh battery
- DUAL MOTOR ELECTRIC 325 with 73kWh battery
- PLUG-IN HYBRID 225 e-DSC7 with 21kWh battery
- HYBRID 145 e-DSC6 with 1.2L petrol engine and an electric motor powered by a battery that charges whilst driving

ELECTRIC 210 WITH 73KWH BATTERY

Battery

The 400 V 73kWh traction battery uses Lithium-Ion technology. It stores and supplies the energy required for the operation of the electric motor, air conditioning and heating. Its state of charge is represented by an indicator and a reserve power warning lamp on the instrument panel.

Electric Motor

The 213 hp electric motor provides propulsion in accordance with the selected driving mode and driving conditions. It recovers energy during vehicle braking and deceleration phases. This new-generation electric motor delivers more power and a better efficiency.

Warranty

8 year/100,000 mile (For 70% of original battery capacity).

Charging

3008 ELECTRIC versions are fitted with a 11kW tri-phase on board charger and supplied with Mode 3 type 2 cable for wall box charging.

- A full charge can be achieved in 7 hours when connected to a 11kW supply, or 10.5 hours with a 7kW supply.
- On a Rapid DC charger – 100kW or more (up to 160kW) – from a dedicated public terminal, 20-80% charged in 30 minutes.
- Charging is also possible using a Domestic (AC) 2.3 kW supply from a regular 3-pin plug socket, and an accessory charging cable available via a PEUGEOT retailer. A wallbox at home or Public Charging is highly recommended for your everyday convenient charging solution.

Battery performance and durability is optimised by limiting charging to 80% of the battery capacity in daily use. **The Smart Battery Management function** is activated in the touchscreen, and the **80% charge limitation is automatically managed by the vehicle.**

Before a long trip, this function can be disabled (either in the touchscreen or in the MyPEUGEOT App) to reach 100% charge and maximum range. The 80% charging limitation reactivates automatically for the next charging session.

Smart Battery limits charging to 80% with Mode 2 or Mode 3 charging only. When charging from a DC charger public terminal, the limitation does not apply in order to maximise charge and range.

Battery Preconditioning

E-3008 versions from Model Year 2026 now feature a new **Battery Preconditioning** function. This enhancement ensures the traction battery reaches its optimal temperature before charging via rapid DC chargers, allowing for optimum charging performance (peak power and curve). By preheating the battery, charging times at DC chargers are reduced. The feature is enabled through IVI software version 33.64 or 33.65.

Battery preconditioning can be activated either automatically by using the Trip Planner, or manually via the touchscreen 'Charge Settings' menu.

PEUGEOT CARE

PEUGEOT CARE delivers peace of mind by providing comprehensive cover for the electric motor, charging system, powertrain, and electrical and mechanical components for **up to 8 years, or 100,000 miles**, whichever comes first, from the date of registration, on PEUGEOT electric cars. It is in addition to the specific warranty offered by PEUGEOT on all its electric vehicle batteries, also lasting 8 years or 100,000 miles, to cover the entire vehicle. This makes PEUGEOT the first European brand to offer such extensive coverage on one of its models.

PEUGEOT CARE consists of 3 years standard manufacturer's warranty plus up to 5 years of special coverage, activated when you decide to maintain your car in the participating PEUGEOT network in line with our service programme. It is valid up to the next scheduled service and reactivated for vehicles up to 8 years old or 100,000 miles, whichever happens first. PEUGEOT CARE is available on new and UK ordered: E-208, E-2008, E-308, E-308 SW, E-3008, E-408, E-5008, E-Rifter and E-Traveller. PEUGEOT CARE does not affect your legal guarantee of conformity or the manufacturer warranty on your car. Please see full terms & conditions.

PEUGEOT 3008
NEXT-LEVEL DRIVING EXPERIENCE

POWERTRAINS

3 Driving Modes

PEUGEOT 3008 features a drive mode selector on the centre console arch offering a choice of 3 driving modes; on ELECTRIC and HYBRID 145 e-DSC6 versions, these are:

- **Normal:** This is the default mode each time the vehicle is started.
- **Eco:** Offers a reduced energy consumption, reducing the performance of the heating and air conditioning without deactivating them and limiting power and torque. Full power and torque are available when the acceleration pedal is fully pressed (‘kick down’).
- **Sport:** Offers a more dynamic driving. Full power and torque are available.

On DUAL MOTOR ELECTRIC versions, there is a 4th driving mode (4-Wheel Drive mode) to choose, in addition to Normal/Eco/Sport modes.

On PLUG-IN HYBRID 225 e-DSC7 versions, the 3 driving modes are:

- **HYBRID:** This is the default mode each time the vehicle is started.
- **ELECTRIC:** Allows driving using only electrical energy. This mode is available as long as there is energy left in the battery. The vehicle automatically changes to 'HYBRID' mode when the battery gets empty.
- **Sport:** Offers a more dynamic driving. Electric power is used to supplement the petrol engine.

3 Regenerative Braking modes

The electrification of a vehicle has a real advantage over a conventional powertrain: the power flow is bidirectional. The electric motor can function both as an engine and as a generator.

When the electric motor is running in generator mode, it is able to **turn the kinetic energy into electricity to recharge the battery.** This process is called regenerative braking.

E-3008 offers **3 regenerative braking modes**, adjustable via steering wheel paddles, allowing a more or a less extensive regeneration of electricity to recharge the battery.

- **Low regeneration:** for sensations close to those of a combustion engine vehicle
- **Moderate regeneration:** for accentuated deceleration when the accelerator pedal is released.
- **Augmented regeneration:** for maximum deceleration when the accelerator pedal is released, and therefore maximum regeneration. In Moderate or Augmented Regenerative Braking mode, the system automatically activates the rear brake lights when the accelerator pedal is released.

EV Services via MyPEUGEOT App (E-3008)

Remote Charging: Control, plan, launch and check the vehicle’s charge status remotely.

Remote Climate Control: Remotely plan and control the heating/ cooling of the cabin prior to departure, ensuring optimum comfort and electric range.

VEHICLE-TO-LOAD (V2L) FUNCTION

Vehicle-to-Load (V2L) preparation is standard on E-3008 versions equipped with bi-directional On-board Charger. The V2L functionality provides the ability to run a highpower electrical device (e.g. charge an e-Bike or run an electrical tool) through the car’s high voltage battery. It can provide electricity up to 3kW and 16A. V2L function is easy to use: the user plugs an adaptor (available as an Accessory from PEUGEOT retailers) into the car’s type 2 socket. Electrical devices can then be plugged into the adaptor. When V2L is activated, a minimum 30% State of Charge (SOC) threshold (pre-set & not adjustable) will be set by the car; once the threshold is reached, V2L will be deactivated.

PEUGEOT 3008
NEXT-LEVEL DRIVING EXPERIENCE
POWERTRAINS

PLUG-IN HYBRID 225 e-DSC7

The PLUG-IN HYBRID 225 e-DSC7 is a new generation of PLUG-IN HYBRID powertrain from STLA Medium platform. With a 21kWh battery, 3008 PLUG-IN HYBRID 225 e-DSC7 is able to deliver 50 miles of electric range, making it an ideal solution for tackling cities, towns, Low Emission Zones in zero-emission mode with complete peace of mind.

In normal driving, the petrol engine and electric motor work together or separately, to provide maximum power and torque required, to optimise fuel consumption and electrical energy, or to charge the traction battery.

HYBRID 145 e-DSC6

HYBRID 145 e-DCS6 is a 48V HYBRID combined with an electrified 6-speed dual-clutch transmission that develops a combined power of 145 hp (107 kW). It has a 0.9kWh battery located under the passenger's front seat. In urban driving, 3008 can operate more than 50% of the time in 100% zero-emission electric mode. This significantly reduces fuel consumption and CO_2 emissions. This HYBRID technology requires no plug-in to charge the traction battery; charging during deceleration.

In normal driving, the petrol engine and electric motor work together or separately, to provide maximum power and torque required, to optimise fuel consumption and electrical energy, or to charge the traction battery.

The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures.

Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard.

^ 'LOW': Low speed city driving, representative of city centre driving, maximum 35mph.

^^ 'MEDIUM': Medium speed town driving, representative of town or suburban driving, maximum 50mph.

^^^ 'HIGH': High speed rural driving, representative of A-road or dual carriageway driving, maximum 60mph.

^* 'EXTRA HIGH': Extra High speed motorway driving, representative of a typical European motorway, maximum 81mph.

^*^ 'COMBINED': A mixed journey average of all elements.

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

Carbon Dioxide (CO_2) emissions Combined (g/km)	120 - 141	52 - 78
FUEL		
Capacity (litres)	55	55
REGULATED EMISSIONS		
Carbon monoxide (mg/km)	343.1 - 347.8	343.9
Total hydrocarbons (mg/km)	20.2	35.5
Nitrogen Oxides (mg/km)	28.2	4.7
Particulate Matter (mg/km)	0.31	0.17

The fuel consumption achieved, and CO_2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO_2 figures.

Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO_2 values of other cars tested to the same technical standard.

^ 'LOW': Low speed city driving, representative of city centre driving, maximum 35mph.

^^ 'MEDIUM': Medium speed town driving, representative of town or suburban driving, maximum 50mph.

^^^ 'HIGH': High speed rural driving, representative of A-road or dual carriageway driving, maximum 60mph.

^* 'EXTRA HIGH': Extra High speed motorway driving, representative of a typical European motorway, maximum 81mph.

^*^ 'COMBINED': A mixed journey average of all elements.

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

PEUGEOT 3008
SERVICE CONTRACTS

PEUGEOT OFFER TWO LEVELS OF SERVICE PLAN CONTRACTS

What's included:

- PEUGEOT Service Plans offer complete assurance that all your servicing costs will be completely covered for the duration of the plan
- We offer PEUGEOT Service Plans for up to five years with many mileage options
- One-off up front or monthly direct debit payment options available
- All packages are affordable and inflation proof, which means they will remain at a fixed cost for the duration of the plan.

Monthly price examples*:

3008 ELECTRIC

36 Months / 30,000 Miles	48 Months / 40,000 Miles	60 Months / 50,000 Miles
£8.11 per month	£10.15 per month	£10.12 per month

3008 HYBRID 145

36 Months / 30,000 Miles	48 Months / 40,000 Miles	60 Months / 50,000 Miles
£16.13 per month	£20.66 per month	£20.70 per month

3008 PLUG-IN HYBRID 225

36 Months / 30,000 Miles	48 Months / 40,000 Miles	60 Months / 50,000 Miles
£20.21 per month	£26.03 per month	£26.09 per month

*Price examples based on a mileage of 10,000 per annum, include VAT and correct as of November 2025.

A PEUGEOT Service Plan can be purchased up to 12 months after registration date. The prices quoted above are indicative, for a bespoke quote please contact your local PEUGEOT Retailer. If the plan is taken out after the date of registration an additional payment will be required to cover this starting period.

Any normal wear and tear maintenance work such as replacement of tyres, brake pads, brake discs, clutches, shock absorbers, wipers, batteries, bulbs, silencer, exhausts and windscreens are excluded. Servicing must be carried out by a PEUGEOT Authorised Repairer in the UK. PEUGEOT Motor Company reserve the right to change, amend or withdraw this product at any time.

EXTENDED PEUGEOT ASSISTANCE*

What's included: Extension of your PEUGEOT Assistance Cover:

- Offers you the opportunity to extend PEUGEOT Assistance up to a further two years

Cover includes:

- PEUGEOT Assistance from Home
- PEUGEOT Roadside Assistance
- PEUGEOT Recovery
- PEUGEOT Onward Travel
- PEUGEOT European Cover

*Excludes non-vehicle induced faults.

TO FIND OUT ABOUT EXTENDING YOUR PEUGEOT ASSISTANCE COVER **CALL 0800 294 0294**

VAT is calculated at 20%. VAT is not applicable to cars sold in the Channel Islands.

All Cars with a manufacturers list price over £40,000 (£50,000 for ELECTRIC) at first registration will pay an additional rate of £440 per year (at current rates) on top of Annual 'Standard Rate' VED, for five years from the start of the second licence, before returning to the Annual Standard Rate. (Manufacturers List price includes all optional paint, trim and equipment, but excludes first year VED and first registration fee)

PEUGEOT 3 YEARS OF WARRANTY

All vehicles first registered in the UK and purchased from a UK PEUGEOT Retailer benefit from a PEUGEOT 2 year unlimited mileage manufacturer's warranty and a free optional additional 1 year of warranty provided by the PEUGEOT Retail Network in the UK.

PEUGEOT ASSISTANCE

All new PEUGEOTs come with PEUGEOT Assistance, our breakdown assistance service.

PEUGEOT Assistance is available every minute of the day and night; 365 days of the year, for you and anyone else driving your PEUGEOT with your permission.
